## Projects

### Clacku

*Anonymous location-based chat app built with React Native and Django*

[iOS](#) • [Android](#)

- ❑ Leverages geospatial queries to efficiently show posts nearby
- ❑ Includes tons of desired social features such as liking, user tagging, direct messaging, blocking, photos, gifs, dark mode and much more
- ❑ Supports over 2000 weekly active users around the globe

### Instashare

[Live](#) • [GitHub](#)

*Social media site for creating and sharing posts, built with Ruby on Rails and React*

- ❑ Integrates Google Maps API to render a map and associated posts from a location
- ❑ Uploads images to AWS S3 using Paperclip gem to give users ability to post images
- ❑ Paginates content on the feed page with Kaminari gem, allowing users to 'load-more' posts

### Grouply

[Live](#) • [GitHub](#)

*Responsive, slack-like chat app enabling instant group and private communication*

- ❑ Uses latest frontend technologies including React, Redux, Socket.io, and Node.js
- ❑ Stores messages in a MongoDB database to persist data
- ❑ Allows users to sign up/sign in with a Facebook account

## Skills

JavaScript  
Java

React  
HTML5

SQL  
AWS

CSS  
Python

Django  
Git

## Experience

### UI Intern at Immersed Games

Aug 2014 - Jun 2015

- ❑ Created an interactive encyclopedia widget to display important information about objects in the game
- ❑ Utilized Unreal's visual scripting software and C++ to render UI components
- ❑ Implemented gameplay logic in C++

### Software Developer at Psocratic

Feb 2016 - May 2017

- ❑ Collaborated with designers and a lead engineer to create pages for a responsive, single-page app in React
- ❑ Created Web APIs in Java and wrote automated backend tasks
- ❑ Tested code on a variety of browser and operating systems and implemented frontend monitoring tools to improve user experience

### Software Engineer at Nestio

June 2017 - Present

- ❑ Helping build the next generation online leasing and inventory management platform for brokers and management companies
- ❑ Architecting and building out new product features from the ground up
- ❑ Attending conferences and classes to learn emerging best practices around React and JavaScript

## Education

### App Academy

Intensive, 12-Week Web Development Course

Fall 2015

New York, NY

### Florida State University

Bachelor of Science in Economics with minor in Computer Science  
GPA 3.5, Dean's List

2010 - 2014

Tallahassee, FL
