Projects

Instashare

[Live](#) • [GitHub](#)

Social media site for creating and sharing posts, built with Ruby on Rails and React.js

- ❑ Integrates Google Maps API and Geolocation to display a map with fitted bounds of a specific location
- ❑ Uploads images to AWS cloud using Paperclip to give users ability to post images
- ❑ Paginates content on the feed page with Kaminari, allowing users to 'load-more' posts and reduces the cost of database queries

Asteroids

Classic spaceship shooter built with HTML5 and JavaScript

[Live](#) • [GitHub](#)

- ❑ Leverages the HTML5 Canvas to render moving 2D objects
- ❑ Maps key presses to actions, creating event-driven gameplay
- ❑ Features a visually-appealing design using sprites and fluid animations

ActiveRecordLite

[GitHub](#)

Responsible for performing queries on your database

- ❑ Uses metaprogramming to package up SQL queries into bite-sized methods
- ❑ Implements relational associations such as has_many and belongs_to

Skills

Ruby	Javascript	C++	jQuery	HTML	Git
Ruby on Rails	React.js	Java	SQL	CSS	RSpec

Experience

Intern UI Developer at Immersed Games

Aug 2014 - Jun 2015

- ❑ Worked in C++ on backend and frontend AI
- ❑ Utilized Unreal's visual scripting software to render UI components

Intern Web Developer at Livingua

Jul 2015 - Sept 2015

- ❑ In charge of designing the Wordpress-based website using jQuery, HTML, and PHP
- ❑ Designed an algorithm to match instructors with learners based on compatibility
- ❑ Used JavaScript to filter drop-down options for the user

Education

App Academy

Intensive Full Stack Web Development Course

Fall 2015

New York, NY

Florida State University

Bachelor of Science in Economics with minor in Computer Science

GPA 3.5, Dean's List

2010 - 2014

Tallahassee, FL
